Ron Lickteig has done heroic toil getting the worst trash tree junk out of the front yard and Readers Prof. Huseby, Stephen Greenlee and Father John have resumed the attack last week. We have parishioners who actually know the native and successful imports of decent looking plantings to fill in now that the trash trees and over grown junipers have gone to the big chipper to be made into mulch.

In addition the Vestry has had a consultation with a Lubbock, Texas designer who may produce more potential fixes for the both the front and side yards.
